

The image features a stylized logo for 'Track Industrial' in a bold, red, sans-serif font. The word 'TRACK' is on the top line, and 'INDUSTRIAL' is on the bottom line. The background is a dark red, textured surface. On the left side, there is a vertical strip of lighter red with a pattern of overlapping squares. The overall design is modern and industrial.

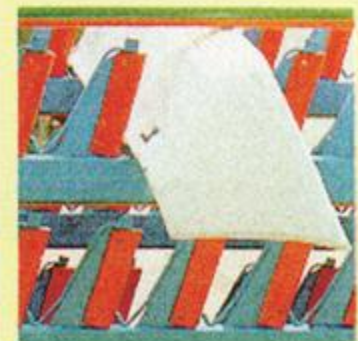

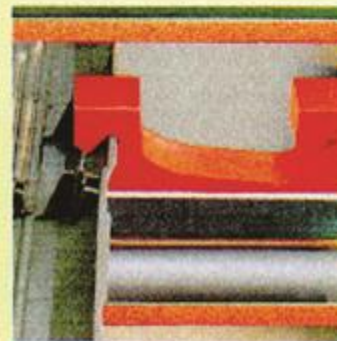

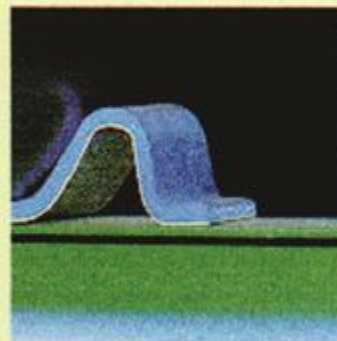

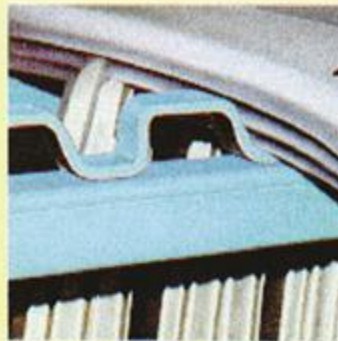

**TRACK**  
**INDUSTRIAL**

TECNOLOGIA

**RACKS  
&  
SEPARADORES  
ACOLCHOADOS**

### DETALHE A

Separador lateral fixo para localização e separação das peças.

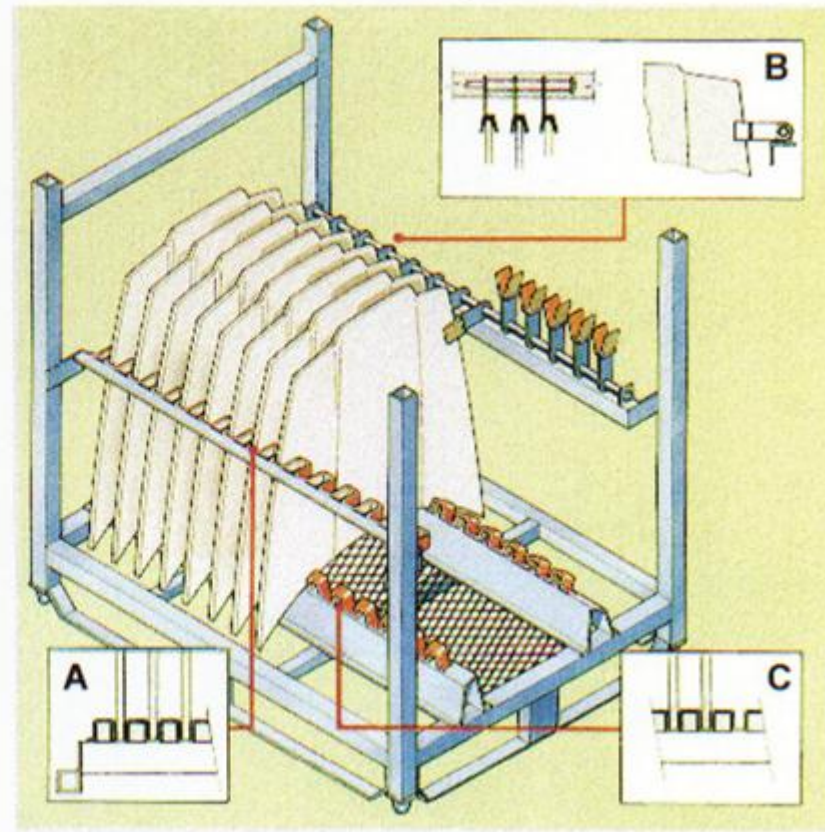

### DETALHE B

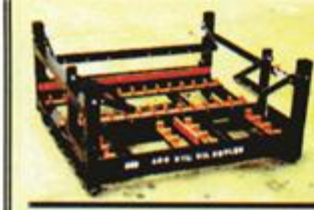

Separador lateral com separadores individuais giratórios posicionados um a um de acordo com a colocação das peças. Estes separadores depois de promover total separação das peças são travados durante o transporte.

### DETALHE C

Separadores inferiores fixos para posicionamento e proteção das peças durante o transporte.

NOTA: O sistema permite proteção para componentes pintados e sem pintura.

Bonnet Assembly

### **Rack Para Vidros**

Sistema de fixação para qualquer perfil de vidros podendo ser utilizado para diversos tamanhos, lisos, encapsulados ou com guarnições.

### **Rack com colunas automáticas**

Sistema articulado automático de apoio, separando cada nível, sem que o operador tenha que acionar qualquer mecanismo na colocação e retirada de peças.

### **Rack com separadores moldados**

Separadores e suportes especialmente moldados em poliuretano para peças especiais, garantindo sua fixação no rack.

### **Rack com bandejas articuladas**

Sistema Automático de articulação de bandejas com barras de torção, bastando seu simples destravamento para que seja levantada sem que o operador toque nela.

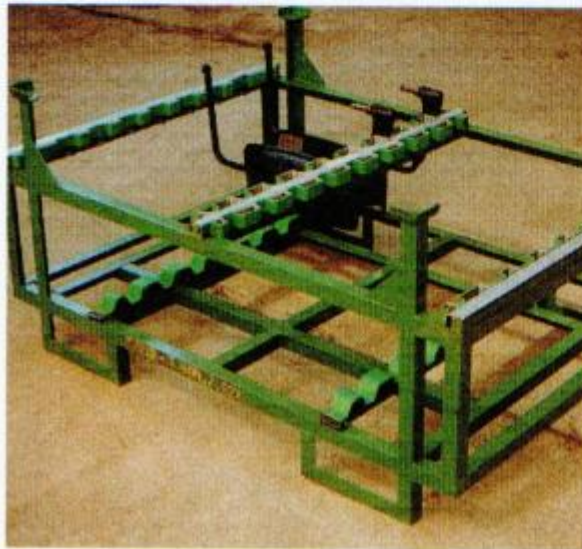

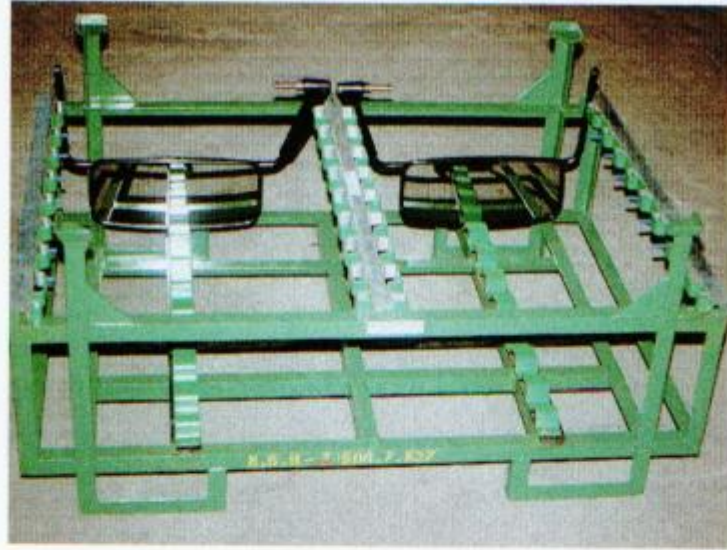

### **Rack com fechamento de lona**

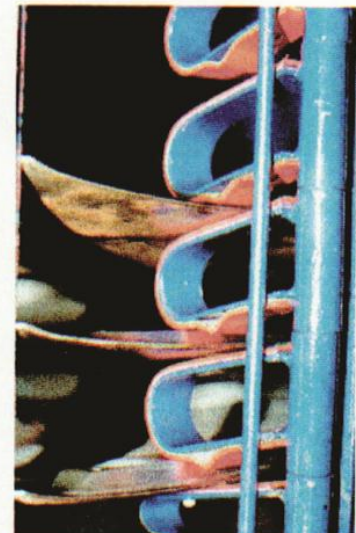

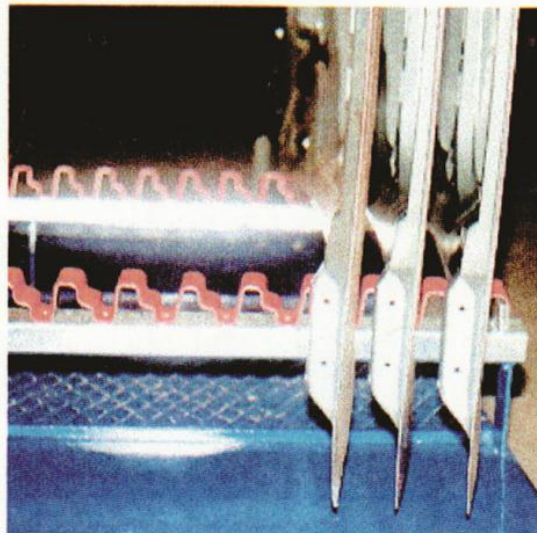

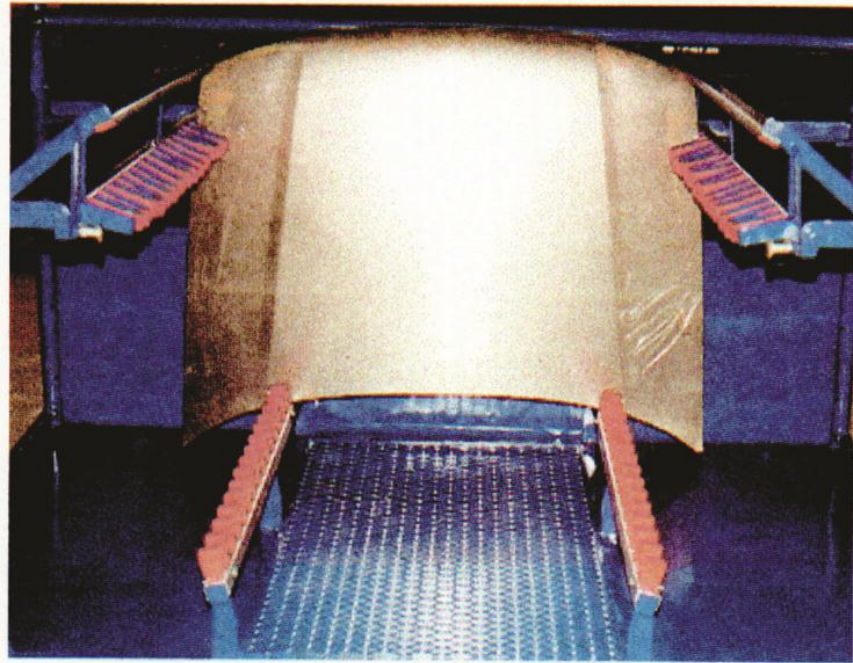

Revestimentos especiais em laminados plásticos impermeáveis, promovendo a redução de sujeira e pó durante o transporte e armazenagem.
